the most recent conversations about financial instability in international political economy have addressed the ongoing financial spasms of the past five years a global financial spasm unleashed by the 2008 subprime debacle ongoing eurozone instability and general price volatility in securities markets globally alongside and as part of these broader spasms however has been another key trend the intensifying reach of global financial markets into and among those populations which live at its very edges there are increasing and increasingly profitable experiments which are explicitly targeted to those without regular access to full or formalized financial practices this book places the practices of fringe finance in critical context by situating

them within a larger set of discussions in the field most importantly this book is part of a much broader attempt in ipe to rethread the study of finance to questions of cultural and social theory in a meaningful manner finance is increasingly subjected to innovative forms of social inquiry influenced by a range of diverse methods including governmentality actor network theory and cultural economy by drawing on several strands of social theory this book contributes to this broader movement in ipe and helps open more space for the continuation of these interdisciplinary conversations this work will be of great interest to students and scholars of ipe development studies and economic sociology

like the other titles in barron s business review series the new sixth edition of accounting makes a useful supplement to college textbooks and is also excellent as a main text in business brush up programs author peter j eisen familiarizes students with key accounting terms explains the accounting equation and goes on to instruct in the use and preparation of financial statements the recording of business transactions in journals and in closing and adjusting entries at the end of a business period the book is organized to closely follow a standard college textbook but concentrates on student understanding of what is done and more importantly how and why other helpful features include review questions computational problems with complete detailed solutions presented when appropriate additional problems to reinforce the reader s knowledge an extensive glossary of accounting terms new features in this edition include instruction in the use of spreadsheets to solve many accounting problems a more detailed explanation of accounting data procedures as internal controls designed to safeguard assets and extensive commentary on business ethics
